

mongocli plugin

The plugin adds several aliases for common mongocli commands.

To use it, add `mongocli` to the `plugins` array of your `zshrc` file:

```
plugins=(... mongocli)
```

Aliases

Alias	Command	Description
<code>ma</code>	<code>mongocli atlas</code>	Shortcut for mongocli Atlas commands.
<code>mcm</code>	<code>mongocli cloud-manager</code>	Shortcut for mongocli Cloud Manager commands.
<code>mom</code>	<code>mongocli ops-manager</code>	Shortcut for mongocli Cloud Manager commands.
<code>miam</code>	<code>mongocli iam</code>	Shortcut for mongocli IAM commands.
