

zh-CN

使用 `okText` 和 `cancelText` 自定义按钮文字。

en-US

Set `okText` and `cancelText` props to customize the button's labels.

```
import { Popconfirm } from 'antd';

export default () => (
  <Popconfirm title="Are you sure? " okText="Yes" cancelText="No">
    <a href="#">Delete</a>
  </Popconfirm>
);
```
