## Working with the Ansible repo

- I want to make my first code changes to a collection or to `ansible-core`. How do I [ref`set up my Python development environment <environment\\_setup>`](#)?

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\ansible-devel\docs\docsite\rst\community\[ansible-devel] [docs] [docsite] [rst] [community] contributions.rst, line 21); [backlink](#)

Unknown interpreted text role "ref".

- I would like to get more efficient as a developer. How can I find [ref`editors, linters, and other tools <other\\_tools\\_and\\_programs>`](#) that will support my Ansible development efforts?

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\ansible-devel\docs\docsite\rst\community\[ansible-devel] [docs] [docsite] [rst] [community] contributions.rst, line 22); [backlink](#)

Unknown interpreted text role "ref".

- I want my code to meet Ansible's guidelines. Where can I find guidance on [ref`coding in Ansible <developer\\_guide>`](#)?

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\ansible-devel\docs\docsite\rst\community\[ansible-devel] [docs] [docsite] [rst] [community] contributions.rst, line 23); [backlink](#)

Unknown interpreted text role "ref".

- I would like to connect Ansible to a new API or other resource. How do I [ref`create a collection <developing\\_modules\\_in\\_groups>`](#)?

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\ansible-devel\docs\docsite\rst\community\[ansible-devel] [docs] [docsite] [rst] [community] contributions.rst, line 24); [backlink](#)

Unknown interpreted text role "ref".

- My pull request is marked `needs_rebase`. How do I [ref`rebase my PR <rebase\\_guide>`](#)?

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\ansible-devel\docs\docsite\rst\community\[ansible-devel] [docs] [docsite] [rst] [community] contributions.rst, line 25); [backlink](#)

Unknown interpreted text role "ref".

- I am using an older version of Ansible and want a bug fixed in my version that has already been fixed on the `devel` branch. How do I `ref: backport a bugfix PR <backport_process>`?

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\ansible-devel\docs\docsite\rst\community\[ansible-devel] [docs] [docsite] [rst] [community] contributions.rst, line 26); [backlink](#)

Unknown interpreted text role "ref".

- I have an open pull request with a failing test. How do I learn about Ansible's `ref: testing (CI) process <developing_testing>`?

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\ansible-devel\docs\docsite\rst\community\[ansible-devel] [docs] [docsite] [rst] [community] contributions.rst, line 27); [backlink](#)

Unknown interpreted text role "ref".

- I am ready to step up as a collection maintainer. What are the `ref: guidelines for maintainers <maintainers>`?

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\ansible-devel\docs\docsite\rst\community\[ansible-devel] [docs] [docsite] [rst] [community] contributions.rst, line 28); [backlink](#)

Unknown interpreted text role "ref".

- A module in a collection I maintain is obsolete. How do I `ref: deprecate a module <deprecating_modules>`?

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\ansible-devel\docs\docsite\rst\community\[ansible-devel] [docs] [docsite] [rst] [community] contributions.rst, line 29); [backlink](#)
