

This post contains a code snippet with syntax highlighting. The highlight theme is the same one used in the official React documentation.

```
function NumberList(props) {
  const numbers = props.numbers
  const listItems = numbers.map(number => (
    <li key={number.toString()}>{number}</li>
  ))
  return <ul>{listItems}</ul>
}

const numbers = [1, 2, 3, 4, 5]
ReactDOM.render(
  <NumberList numbers={numbers} />,
  document.getElementById("root")
)
```
