

zh-CN

通过 `summary` 设置总结栏。使用 `Table.Summary.Cell` 同步 Column 的固定状态。你可以通过配置 `Table.Summary` 的 `fixed` 属性使其固定(4.16.0 支持)。

en-US

Set summary content by `summary` prop. Sync column fixed status with `Table.Summary.Cell` . You can fixed it by set `Table.Summary` `fixed` prop(since 4.16.0).

```
import { Table, Typography } from 'antd';

const { Text } = Typography;

const columns = [
  {
    title: 'Name',
    dataIndex: 'name',
  },
  {
    title: 'Borrow',
    dataIndex: 'borrow',
  },
  {
    title: 'Repayment',
    dataIndex: 'repayment',
  },
];

const data = [
  {
    key: '1',
    name: 'John Brown',
    borrow: 10,
    repayment: 33,
  },
  {
    key: '2',
    name: 'Jim Green',
    borrow: 100,
    repayment: 0,
  },
  {
    key: '3',
    name: 'Joe Black',
    borrow: 10,
    repayment: 10,
  },
  {
    key: '4',
    name: 'Jim Red',
```

```

    borrow: 75,
    repayment: 45,
  },
];

const fixedColumns = [
  {
    title: 'Name',
    dataIndex: 'name',
    fixed: true,
    width: 100,
  },
  {
    title: 'Description',
    dataIndex: 'description',
  },
];

const fixedData = [];
for (let i = 0; i < 20; i += 1) {
  fixedData.push({
    key: i,
    name: ['Light', 'Bamboo', 'Little'][i % 3],
    description: 'Everything that has a beginning, has an end.',
  });
}
