

[Home](#) > [puppeteer](#) > [Page](#) > [setOfflineMode](#)

Page.setOfflineMode() method

Signature:

```
setOfflineMode(enabled: boolean): Promise<void>;
```

Parameters

Parameter	Type	Description
enabled	boolean	When <code>true</code> , enables offline mode for the page.

Returns:

Promise<void>

Remarks

NOTE: while this method sets the network connection to offline, it does not change the parameters used in `[page.emulateNetworkConditions(networkConditions)]` (`#pageemulatenetworkconditionsnetworkconditions`)
