## **FirewallD Plugin**

This plugin adds some aliases and functions for FirewallD using the firewalld-cmd command. To use it, add firewalld to your plugins array.

```
plugins=(... firewalld)
```

## **Aliases**

Alias	Command	Description
fw	sudo firewall-cmd	Shorthand
fwr	sudo firewall-cmdreload	Reload current configuration
fwp	sudo firewall-cmdpermanent	Create permanent rule
fwrp	sudo firewall-cmdruntime-to-permanent	Save current configuration

## **Functions**

Function	Description
fwl	Lists configuration from all active zones and direct rules
