${\rm Home} > {\rm puppeteer} > {\rm Coverage} > {\rm stopCSSCoverage}$ 

## Coverage.stopCSSCoverage() method

Signature:

```
stopCSSCoverage(): Promise<CoverageEntry[]>;
```

Returns:

Promise < Coverage Entry[] >

Promise that resolves to the array of coverage reports for all stylesheets.

## Remarks

 $\operatorname{CSS}$  Coverage doesn't include dynamically injected style tags without sourceURLs.
