Puppeteer.networkConditions property

Signature:

```
get networkConditions(): PredefinedNetworkConditions;
```

Remarks

Returns a list of network conditions to be used with

 $\verb|page.emulateNetworkConditions| (networkConditions)|. Actual list of predefined conditions can be found in $$src/common/NetworkConditions.ts.$$

Example

```
const puppeteer = require('puppeteer');
const slow3G = puppeteer.networkConditions['Slow 3G'];

(async () => {
    const browser = await puppeteer.launch();
    const page = await browser.newPage();
    await page.emulateNetworkConditions(slow3G);
    await page.goto('https://www.google.com');
    // other actions...
    await browser.close();
})();
```
