GitHub for Visual Studio Code

Notice: This extension is bundled with Visual Studio Code. It can be disabled but not uninstalled.

Features

This extension provides the following GitHub-related features for VS Code:

- `Publish to GitHub` command
- `Clone from GitHub` participant to the `Git: Clone` command
- GitHub authentication for built-in git commands, controlled via the `github.gitAuthentication` command
- Automatic fork creation when attempting to push to a repository without permissions
