zh-CN

使用 `status` 为 TimePicker 添加状态，可选 `error` 或者 `warning` 。

en-US

Add status to TimePicker with `status` , which could be `error` or `warning` .

```
import { TimePicker, Space } from 'antd';

const Status: React.FC = () => (
  <Space direction="vertical">
    <TimePicker status="error" />
    <TimePicker status="warning" />
    <TimePicker.RangePicker status="error" />
    <TimePicker.RangePicker status="warning" />
  </Space>
);

export default () => <Status />;
```
