Border

We standardize the borders that can be used in buttons, cards, pop-ups and other components.

Border

There are few border styles to choose.

Name

Thickness

Demo

Solid

1px

Dashed

2px

Radius

There are few radius styles to choose.

<el-row :gutter="12" class="demo-radius"> <el-col :span="6" :xs="{span: 12}">

No Radius

```
<div class="value">border-radius: 0px</div>
<div class="radius"></div>
```

<el-col :span="6" :xs="{span: 12}">

Small Radius

```
<div class="value">border-radius: {{borderRadiusSmall}}</div>
<div
  class="radius"
  :style="{ borderRadius: borderRadiusSmall }"
></div>
```

<el-col :span="6" :xs="{span: 12}">

Large Radius

```
<div class="value">border-radius: {{borderRadiusBase}}</div>
<div
  class="radius"
  :style="{ borderRadius: borderRadiusBase }"
></div>
```

<el-col :span="6" :xs="{span: 12}">

Round Radius

```
<div class="value">border-radius: 30px</div>
<div class="radius radius-30"></div>
```

Shadow

There are few shadow styles to choose.

Basic Shadow box-shadow: {{boxShadowBase}}

Light Shadow box-shadow: {{boxShadowLight}}
