Unix Specific Services

The modules described in this chapter provide interfaces to features that are unique to the Unix operating system, or in some cases to some or many variants of it. Here's an overview:

System Message: ERROR/3 (`D:\onboarding-resources\sample-onboarding-resources\cpython-main\Doc\library\[cpython-main][Doc][library]unix.rst`, **line 12**)

Unknown directive type "toctree".

```
.. toctree::

   posix.rst
   pwd.rst
   grp.rst
   termios.rst
   tty.rst
   pty.rst
   fcntl.rst
   resource.rst
   syslog.rst
```
