zh-CN

不区分大小写的 AutoComplete

en-US

A non-case-sensitive AutoComplete

```
import { AutoComplete } from 'antd';

const options = [
  { value: 'Burns Bay Road' },
  { value: 'Downing Street' },
  { value: 'Wall Street' },
];

const Complete: React.FC = () => (
  <AutoComplete
    style={{ width: 200 }}
    options={options}
    placeholder="try to type `b`"
    filterOption={(inputValue, option) =>
      option!.value.toUpperCase().indexOf(inputValue.toUpperCase()) !== -1
    }
  />
);

export default () => <Complete />;
```
