# Go on DragonFly BSD

From https://github.com/golang/go/issues/34958#issuecomment-543852995 :

> Go's DragonFly support policy is that we support the latest stable
> release primarily, but also try to keep DragonFly master passing, in
> prep for it to become the latest stable release.

> But that does mean we need one more builder at the moment.

| Kernel version | Architectures | Initial support version | Final support version |
|---|---|---|---|
| 4.6 or above | amd64 | Go 1.8 | |
| 4.4.4 (EOL) | amd64 | Go 1.8 | |
| 4.4 through 4.4.3 (EOL) | amd64 | Go 1.3 _*_ | Go 1.7.6 |
| 3.8 through 4.2 (EOL) | amd64 | Go 1.3 _*_ | Go 1.7.6 |
| 3.6 (EOL) | amd64, 386 | Go 1.3 | Go 1.4.3 |

_*_ Go 1.5 or above is recommended.
