Cobra Changelog

v1.1.3

- **Fix:** release-branch.cobra1.1 only: Revert "Deprecate Go < 1.14" to maintain backward compatibility

v1.1.2

Notable Changes

- Bump license year to 2021 in golden files (#1309) @Bowbaq
- Enhance PowerShell completion with custom comp (#1208) @Luap99
- Update gopkg.in/yaml.v2 to v2.4.0: The previous breaking change in yaml.v2 v2.3.0 has been reverted, see go-yaml/yaml#670
- Documentation readability improvements (#1228 etc.) @zaataylor etc.
- Use golangci-lint: Repair warnings and errors resulting from linting (#1044) @umarcor

v1.1.1

- **Fix:** yaml.v2 2.3.0 contained a unintended breaking change. This release reverts to yaml.v2 v2.2.8 which has recent critical CVE fixes, but does not have the breaking changes. See https://github.com/spf13/cobra/pull/1259 for context.
- **Fix:** correct internal formatting for go-md2man v2 (which caused man page generation to be broken). See https://github.com/spf13/cobra/issues/1049 for context.

v1.1.0

Notable Changes

- Extend Go completions and revamp zsh comp (#1070)
- Fix man page doc generation - no auto generated tag when `cmd.DisableAutoGenTag = true` (#1104) @jpmcb
- Add completion for help command (#1136)
- Complete subcommands when TraverseChildren is set (#1171)
- Fix stderr printing functions (#894)
- fix: fish output redirection (#1247)

v1.0.0

Announcing v1.0.0 of Cobra. 🎉

Notable Changes

- Fish completion (including support for Go custom completion) @marckhouzam
- API (urgent): Rename BashCompDirectives to ShellCompDirectives @marckhouzam
- Remove/replace SetOutput on Command - deprecated @jpmcb
- add support for autolabel stale PR @xchapter7x
- Add Labeler Actions @xchapter7x
- Custom completions coded in Go (instead of Bash) @marckhouzam
- Partial Revert of #922 @jharshman
- Add Makefile to project @jharshman
- Correct documentation for InOrStdin @desponda
- Apply formatting to templates @jharshman

- Revert change so help is printed on stdout again @marckhouzam
- Update md2man to v2.0.0 @pdf
- update viper to v1.4.0 @umarcor
- Update cmd/root.go example in README.md @jharshman
