Positions

Use these shorthand utilities for quickly configuring the position of an element.

z-index

{{"demo": "ZIndex.js", "defaultCodeOpen": false, "bg": true}}

```
<Box sx={{ zIndex: 'tooltip' }}>
<Box sx={{ zIndex: 'modal' }}>
```

API

```
import { positions } from '@mui/system';
```

Import name	Prop	CSS property	Theme key
position	position	position	none
zIndex	zIndex	z-index	zIndex
top	top	top	none
right	right	right	none
bottom	bottom	bottom	none
left	left	left	none
