MUI docs

This is the documentation website of MUI.

To start the docs site in development mode, from the project root, run:

```
yarn && yarn docs:dev
```

If you do not have yarn installed, select your OS and follow the instructions on the Yarn website.

DO NOT USE NPM, use Yarn to install the dependencies.

How can I add a new demo to the documentation?

You can follow this guide on how to get started contributing to MUI.

How do I help to improve the translations?

Please visit https://translate.mui.com/ where you will be able to select a language and edit the translations. Please don't submit pull requests directly.
