自定义全局组件的 Empty 样式。

en-US

Use ConfigProvider set global Empty style.

```
import {
  ConfigProvider,
  Switch,
  Divider,
  TreeSelect,
  Select,
  Cascader,
  Transfer,
  Table,
  List,
} from 'antd';
import { SmileOutlined } from '@ant-design/icons';

const customizeRenderEmpty = () => (
  <div style={{ textAlign: 'center' }}>
    <SmileOutlined style={{ fontSize: 20 }} />
    <p>Data Not Found</p>
  </div>
);

const style = { width: 200 };

class Demo extends React.Component {
  state = {
    customize: false,
  };

  render() {
    const { customize } = this.state;
    return (
      <div>
        <Switch
          unCheckedChildren="default"
          checkedChildren="customize"
          checked={customize}
          onChange={val => {
            this.setState({ customize: val });
          }}
        />

        <Divider />

        <ConfigProvider renderEmpty={customize && customizeRenderEmpty}>
```

```jsx
      <div className="config-provider">
        <h4>Select</h4>
        <Select style={style} />

        <h4>TreeSelect</h4>
        <TreeSelect style={style} treeData={[]} />

        <h4>Cascader</h4>
        <Cascader style={style} options={[]} showSearch />

        <h4>Transfer</h4>
        <Transfer />

        <h4>Table</h4>
        <Table
          style={{ marginTop: 8 }}
          columns={[
            {
              title: 'Name',
              dataIndex: 'name',
              key: 'name',
            },
            {
              title: 'Age',
              dataIndex: 'age',
              key: 'age',
            },
          ]}
        />

        <h4>List</h4>
        <List />
      </div>
    </ConfigProvider>
  </div>
  );
  }
}

export default () => <Demo />;
```
