TypeScript & Styled Components Next.js example

This is a really simple project that show the usage of Next.js with TypeScript and Styled Components.

Deploy your own

Deploy the example using [Vercel](#) or preview live with [StackBlitz](#)

[▲ Deploy](#)

How to use it?

Execute `create-next-app` with [npm](#) or [Yarn](#) to bootstrap the example:

```
npx create-next-app --example with-typescript-styled-components with-typescript-
styled-components-app
# or
yarn create next-app --example with-typescript-styled-components with-typescript-
styled-components-app
# or
pnpm create next-app -- --example with-typescript-styled-components with-typescript-
styled-components-app
```

Deploy it to the cloud with [Vercel](#) ([Documentation](#)).

Notes

This is an amalgamation of the 2 existing examples:

- [with-typescript](#)
- [with-styled-components](#)
