15.0.0 / 2021-11-08

- [breaking] drop eslint < 7, add eslint 8 (#2495)
- [breaking] add `exports`
- [patch] Improve `function-paren-newline` with `multiline-arguments` option (#2471)
- [patch] update default value for complexity (#2420)
- [patch] add disabled `no-unsafe-optional-chaining` rule
- [patch] arthmetic -> arithmetic (#2341)
- [patch] fix spelling of "than" (#2333)
- [patch] add `no-nonoctal-decimal-escape` rule
- [patch] `import/no-extraneous-dependencies`: Add .eslintrc.js to devDeps (#2329)
- [guide] Spread operator => Spread syntax (#2423)
- [guide] add references for eslint rules (#2419)
- [Docs] HTTP => HTTPS (#2489)
- [readme] some updates
- [meta] use `prepublishOnly` script for npm 7+
- [deps] update `eslint-plugin-import`, `eslint-plugin-react`, `object.entries`
- [dev deps] update `@babel/runtime`, 'tape

14.2.1 / 2020-11-06

- [base] `no-restricted-globals`: add better messages (#2320)
- [base] add new core eslint rules, set to off
- [deps] update `confusing-browser-globals`, `object.assign`
- [deps] update `eslint-plugin-import`, use valid `import/no-cycle` `maxDepth` option (#2250, #2249)
- [dev deps] update `@babel/runtime`, `eslint-find-rules`, `eslint-plugin-import`

14.2.0 / 2020-06-10

- [new] add `eslint v7`
- [minor] Disallow multiple empty lines (#2238)
- [minor] Fix typo in no-multiple-empty-lines rule (#2168)
- [patch] Include 'context' exception for `no-param-reassign` (#2230)
- [patch] Allow triple-slash (///) comments (#2197)
- [patch] Disable `prefer-object-spread` for `airbnb-base/legacy` (#2198)
- [deps] update `eslint-plugin-import`, `eslint-plugin-react`, `babel-preset-airbnb`, `eslint-find-rules`, `in-publish`, `tape`, `object.entries`

14.1.0 / 2020-03-12

- [minor] add new disabled rules, update eslint
- [minor] enable `import/no-useless-path-segments` for commonjs (#2113)
- [fix] `whitespace`: only set erroring rules to "warn"
- Fix indentation with JSX Fragments (#2157)
- [patch] `import/no-extraneous-dependencies`: Support karma config files (#2121)
- [readme] normalize multiline word according to merriam-webster (#2138)
- [deps] update `eslint`, `eslint-plugin-import`, `eslint-plugin-react`, `object.entries`, `confusing-browser-globals`
- [dev deps] update `@babel/runtime`, `babel-preset-airbnb`, `safe-publish-latest`, `tape`
- [tests] re-enable eslint rule `prefer-destructuring` internally (#2110)

14.0.0 / 2019-08-09

- [breaking] `no-self-assign`: enable `props` option
- [breaking] enable `no-useless-catch`
- [breaking] enable `max-classes-per-file`
- [breaking] enable `no-misleading-character-class`
- [breaking] enable `no-async-promise-executor`
- [breaking] enable `prefer-object-spread`
- [breaking] `func-name-matching`: enable `considerPropertyDescriptor` option
- [breaking] `padded-blocks`: enable `allowSingleLineBlocks` option (#1255)
- [breaking] `no-multiple-empty-lines`: Restrict empty lines at beginning of file (#2042)
- [breaking] Set 'strict' to 'never' (#1962)
- [breaking] legacy: Enable 'strict' (#1962)
- [breaking] Simplifies `no-mixed-operators` (#1864)
- [breaking] Require parens for arrow function args (#1863)
- [breaking] add eslint v6, drop eslint v4
- [patch] `camelcase`: enable ignoreDestructuring
- [patch] Add markers to spaced-comment block for Flow types (#1966)
- [patch] Do not prefer destructuring for object assignment expression (#1583)
- [deps] update `confusing-browser-globals`, `eslint-plugin-import`, `tape`, `babel-preset-airbnb`
- [dev deps] update babel-related deps to latest
- [dev deps] update `eslint-find-rules`, `eslint-plugin-import`
- [tests] only run tests in non-lint per-package travis job
- [tests] use `eclint` instead of `editorconfig-tools`

13.2.0 / 2019-07-01

- [minor] Enforce dangling underscores in method names (#1907)
- [fix] disable `no-var` in legacy entry point
- [patch] Ignore property modifications of `staticContext` params (#2029)
- [patch] `no-extraneous-dependencies`: Add jest.setup.js to devDeps (#1998)
- [meta] add disabled `prefer-named-capture-group` rule
- [meta] add disabled `no-useless-catch` config
- [deps] Switch to confusing-browser-globals (#1961)
- [deps] update `object.entries`, `eslint-plugin-import`, `eslint-plugin-jsx-a11y`, `eslint-plugin-react`, `tape`
- [docs] correct JavaScript capitalization (#2046)
- [readme] Improve eslint config setup instructions for yarn (#2001)
- [docs] fix docs for whitespace config (#1914, #1871)

13.1.0 / 2018-08-13

- [new] add eslint v5 support (#1834)
- [deps] update `eslint-plugin-import`, `eslint`, `babel-preset-airbnb`, `safe-publish-latest`, `eslint-find-rules`
- [docs] fix typo in readme (#1855)
- [new] update base ecmaVersion to 2018; remove deprecated experimentalObjectRestSpread option

13.0.0 / 2018-06-21

- [breaking] order of import statements is ignored for unassigned imports (#1782)
- [breaking] enable `import/no-cycle`: warn on cyclical dependencies (#1779)
- [breaking] Change import/no-self-import from "off" to "error" (#1770)
- [breaking] Update `object-curly-newline` to match eslint 4.18.0 (#1761)
- [breaking] enable `no-useless-path-segments` (#1743)
- [breaking] Prevent line breaks before and after `=` (#1710)
- [breaking] Add .mjs extension support (#1634)
- [breaking] enable `implicit-arrow-linebreak`
- [breaking] Enables `nonblock-statement-body-position` rule and adds link to guide (#1618)
- [breaking] `no-mixed-operators`: only warn on `**` and `%` mixed with arithmetic operators; removes violation against mixing common math operators. (#1611)
- [breaking] `import/named`: enable
- [breaking] `lines-between-class-members`: set to "always"
- [breaking] `no-else-return`: disallow else-if (#1595)

- [breaking] Enables eslint rule for operator-linebreak
- [new] Adds config entry point with only whitespace rules enabled (#1749, #1751)
- [minor] only allow one newline at the end (#1794)
- [patch] Adjust imports for vue-cli (#1809)
- [patch] Allow devDependencies for `foo_spec.js` naming style (#1732)
- [patch] `function-paren-newline`: change to "consistent"
- [patch] avoid `__mocks__` `no-extraneous-dependencies` check (#1772)
- [patch] Include 'accumulator' exception for `no-param-reassign` (#1768)
- [patch] Set import/extensions to ignorePackages (#1652)
- [patch] properly ignore indentation on jsx
- [patch] `array-callback-return`: enable `allowImplicit` option (#1668)
- [deps] update `eslint`, `eslint-plugin-import`
- [dev deps] update `babel-preset-airbnb`, `tape`, `eslint-find-rules`
- [meta] add ES2015-2018 in npm package keywords (#1587)
- [meta] Add licenses to sub packages (#1746)
- [docs] add `npx` shortcut (#1694)
- [docs] Use HTTPS for links to ESLint documentation (#1628)
- [tests] ensure all entry points parse

12.1.0 / 2017-10-16

- [deps] update `eslint` to `v4.9`

12.0.2 / 2017-10-05

- [deps] update `eslint`

12.0.1 / 2017-09-27

- [fix] ensure all JSX elements are ignored by `indent` (#1569)
- [deps] update `eslint`

12.0.0 / 2017-09-02

- [deps] [breaking] require `eslint v4`
  - enable `function-paren-newline`, `for-direction`, `getter-return`, `no-compare-neg-zero`, `semi-style`, `object-curly-newline`, `no-buffer-constructor`, `no-restricted-globals`, `switch-colon-spacing`, `template-tag-spacing`, `prefer-promise-reject-errors`, `prefer-destructuring`
  - improve `indent`, `no-multi-spaces`, `no-trailing-spaces`, `no-underscore-dangle`

- [breaking] move `comma-dangle` to Stylistic Issues (#1514)
- [breaking] Rules prohibiting global isNaN, isFinite (#1477)
- [patch] also disallow padding in classes and switches (#1403)
- [patch] support Protractor config files in import/no-extraneous-dependencies (#1543)

11.3.2 / 2017-08-22

- [patch] Add jest.config.js to import/no-extraneous-dependencies devDeps (#1522)
- [patch] Improve Gruntfile glob pattern (#1503)
- [deps] update `eslint` v4, `tape`
- [docs] Specify yarn-specific install instructions (#1511)

11.3.1 / 2017-07-24

- [fix] `legacy`: remove top-level `ecmaFeatures`

11.3.0 / 2017-07-23

- [deps] allow eslint v3 or v4 (#1447)
- [deps] update `eslint-plugin-import`
- [minor] Balanced spacing for inline block comments (#1440)
- [minor] `no-return-assign`: strengthen linting against returning assignments
- [patch] Allow jsx extensions for test files (#1427)
- [patch] `no-restricted-globals`: add confusing globals; leave disabled for now (#1420)
- [patch] Support Protractor config files in import/no-extraneous-dependencies (#1456)
- [docs] Remove TODO in prefer-reflect as it's deprecated (#1452)
- [docs] add yarn instructions (#1463, #1464)

11.2.0 / 2017-05-14

- [minor] Disallow unused global variables

11.1.3 / 2017-04-03

- [patch] add error messages to `no-restricted-syntax` (#1353)
- [deps] update `eslint`

11.1.2 / 2017-03-25

- [patch] `no-param-reassign`: add ignorePropertyModificationsFor (#1325)
- [deps] update `eslint`

11.1.1 / 2017-03-03

- [deps] update `eslint`
- [patch] enable `ignoreRestSiblings` in `no-unused-vars`

11.1.0 / 2017-01-08

- [minor] enable `no-multi-assign`
- [deps] update `eslint`, `babel-preset-airbnb`
- Update a deprecated option (`eqeqeq`) (#1244)

11.0.1 / 2017-01-08

- [deps] update `eslint`
- [docs] add note about `install-peerdeps` (#1234)
- [docs] Updated instructions to support non-bash users (#1214)

11.0.0 / 2016-12-11

- [breaking] enable `no-await-in-loop`
- [patch] disable `no-duplicate-imports` rule (#1188, #1195, #1054)
- [patch] `import/no-extraneous-dependencies`: add some comments to ignore patterns
- [patch] add `import/no-extraneous-dependencies` ignore patterns for test files (#1174)
- [patch] `import/no-extraneous-dependencies`: added ignore patterns for config files (#1168)
- [deps] update `eslint`, `eslint-plugin-import`, `tape`

10.0.1 / 2016-11-07

- [fix] legacy config should not require `**`

10.0.0 / 2016-11-06

- [breaking] prefer `**` over `Math.pow`
- [breaking] `comma-dangle`: require trailing commas for functions

- [breaking] enable `no-useless-return`
- [breaking] tighten up `indent`
- [breaking] tighten up `spaced-comment`
- [breaking] enable `import/no-named-default`
- [patch] loosen `max-len` with `ignoreRegExpLiterals` option
- [patch] loosen `no-extraneous-dependencies` for test files (#959, #1089)
- [deps] update `eslint`, `eslint-plugin-import`
- [dev deps] update `eslint-find-rules`
- [Tests] on `node v7`

9.0.0 / 2016-10-16

- [breaking] Add `ForOfStatement` to `no-restricted-syntax` (#1122, #1134)
- [breaking] enable `import/no-webpack-loader-syntax` (#1123)
- [breaking] [deps] update `eslint` to v3.8.0 (#1132)
- [breaking] [deps] update `eslint-plugin-import` to v2 (#1101)
- [patch] `new-cap`: add immutable.js exceptions
- [docs] ensure latest version of config is installed
- [dev deps] update `babel-preset-airbnb`, `eslint`, `eslint-find-rules`, `tape`, `safe-publish-latest`

8.0.0 / 2016-09-24

- [breaking] enable rules: `no-restricted-properties`, `prefer-numeric-literals`, `lines-around-directive`, `import/extensions`, `import/no-absolute-path`, `import/no-dynamic-require`

7.2.0 / 2016-09-23

- [new] set `ecmaVersion` to 2017; enable object rest/spread; update `babel-preset-airbnb`
- [patch] fix category of `no-restricted-properties`
- [deps] update `eslint`, `eslint-plugin-import`, `eslint-find-rules`, `safe-publish-latest`

7.1.0 / 2016-09-11

- [minor] enable `arrow-parens` rule

7.0.1 / 2016-09-10

- [patch] loosen `max-len` by ignoring strings

- [deps] update to `eslint v3.5.0`

7.0.0 / 2016-09-06

- [breaking] Add no-plusplus in style.js and added explanation in README (#1012)

6.0.0 / 2016-09-06

- [breaking] `valid-typeof`: enable `requireStringLiterals` option
- [breaking] enable `class-methods-use-this`
- [breaking] enable `symbol-description`
- [breaking] enable `no-bitwise`
- [breaking] enable `no-tabs`
- [breaking] enable `func-call-spacing`
- [breaking] enable `no-template-curly-in-string`
- [patch] remove redundant `DebuggerStatement` from `no-restricted-syntax` (#1031)
- [deps] update `eslint`, `eslint-find-rules`, `eslint-plugin-import`
- Update `ecmaVersion` to 2016

5.0.3 / 2016-08-21

- [fix] correct `import/extensions` list (#1013)
- [refactor] Changed ESLint rule configs to use 'off', 'warn', and 'error' instead of numbers for better readability (#946)
- [deps] update `eslint`, `eslint-plugin-react`

5.0.2 / 2016-08-12

- [deps] update `eslint`, `eslint-find-rules`, `eslint-plugin-import`
- [tests] add `safe-publish-latest` to `prepublish`

5.0.1 / 2016-07-29

- [patch] `no-unused-expressions`: flesh out options
- [deps] update `eslint` to `v3.2`, `eslint-plugin-import` to `v1.12`
- [tests] improve prepublish script

5.0.0 / 2016-07-24

- [breaking] enable `import/newline-after-import`

- [breaking] enable overlooked rules: `linebreak-style`, `new-parens`, `no-continue`, `no-lonely-if`, `operator-assignment`, `space-unary-ops`, `dot-location`, `no-extra-boolean-cast`, `no-this-before-super`, `require-yield`, `no-path-concat`, `no-label-var`, `no-void`, `constructor-super`, `prefer-spread`, `no-new-require`, `no-undef-init`, `no-unexpected-multiline`
- [deps] update `eslint`, `eslint-find-rules`, `eslint-plugin-import`, `babel-tape-runner`; add `babel-preset-airbnb`
- [patch] flesh out defaults: `jsx-quotes`
- [docs] update the peer dep install command to dynamically look up the right version numbers when installing peer deps
- [tests] fix prepublish scripts

4.0.2 / 2016-07-14

- [fix] repair accidental comma-dangle change

4.0.1 / 2016-07-14 (unpublished)

- [fix] Prevent trailing commas in the legacy config (#950)
- [deps] update `eslint-plugin-import`

4.0.0 / 2016-07-02

- [breaking] [deps] update `eslint` to v3; drop support for < node 4
- [breaking] enable `rest-spread-spacing` rule
- [breaking] enable `no-mixed-operators` rule
- [breaking] enable `import` rules: `no-named-as-default`, `no-named-as-default-member`, `no-extraneous-dependencies`
- [breaking] enable `object-property-newline` rule
- [breaking] enable `no-prototype-builtins` rule
- [breaking] enable `no-useless-rename` rule
- [breaking] enable `unicode-bom` rule
- [breaking] Enforce proper generator star spacing (#887)
- [breaking] Enable imports/imports-first rule (#882)
- [breaking] re-order rules; put import rules in separate file (#881)
- [patch] `newline-per-chained-call`: bump the limit to 4
- [patch] `object-shorthand`: do not warn when the concise form would have a string literal as a name
- [patch] Loosen `prefer-const` to not warn when the variable is "read" before being assigned to
- [refactor] fix quoting of rule properties (#885)
- [refactor] `quotes`: Use object option form rather than deprecated string form.

- [deps] update `eslint`, `eslint-plugin-import`, `eslint-find-rules`, `tape`
- [tests] Only run `eslint-find-rules` on prepublish, not in tests

3.0.1 / 2016-05-08

- [patch] re-disable `no-extra-parens` (#869, #867)

3.0.0 / 2016-05-07

- [breaking] enable `import/no-mutable-exports`
- [breaking] enable `no-class-assign` rule, to pair with `no-func-assign`
- [breaking] widen `no-extra-parens` to include everything, except `nestedBinaryExpressions`
- [breaking] Re-enabling `newline-per-chained-call` (#748)
- [minor] enable `import/no-amd`
- [patch] enable `import/no-duplicates`
- [deps] update `eslint`, `eslint-plugin-import`, `eslint-find-rules`

2.0.0 / 2016-04-29

- [breaking] enable `no-unsafe-finally` rule
- [semver-minor] enable `no-useless-computed-key` rule
- [deps] update `eslint`, `eslint-plugin-import`

1.0.4 / 2016-04-26

- [deps] update `eslint-find-rules`, `eslint-plugin-import`

1.0.3 / 2016-04-21

- [patch: loosen rules] Allow empty class/object methods

1.0.2 / 2016-04-20

- [patch: loosen rules] Allow `break` (#840)

1.0.1 / 2016-04-19

- [patch: loosen rules] Allow `== null` (#542)

1.0.0 / 2016-04-19

- Initial commmit; moved content over from `eslint-config-airbnb` package.
