zh-CN

此演示需要注意去掉 Reset 样式后查看 Dropdown 内 Menu 的样式是否正常。

#19150

en-US

This demo was created for debugging Menu styles inside Dropdown.

#19150

```jsx
import { Menu, Dropdown } from 'antd';
import { MailOutlined, AppstoreOutlined, SettingOutlined, DownOutlined } from '@ant-
design/icons';

const { SubMenu } = Menu;

const menu = (
  <Menu selectedKeys={['1']} openKeys={['sub1']}>
    <Menu.ItemGroup key="group" title="Item Group">
      <Menu.Item key="01">Option 0</Menu.Item>
      <Menu.Item key="02">Option 0</Menu.Item>
    </Menu.ItemGroup>
    <SubMenu key="sub1" icon={<MailOutlined />} title="Navigation One">
      <Menu.ItemGroup key="g1" title="Item 1">
        <Menu.Item key="1">Option 1</Menu.Item>
        <Menu.Item key="2">Option 2</Menu.Item>
      </Menu.ItemGroup>
      <Menu.ItemGroup key="g2" title="Item 2">
        <Menu.Item key="3">Option 3</Menu.Item>
        <Menu.Item key="4">Option 4</Menu.Item>
      </Menu.ItemGroup>
    </SubMenu>
    <SubMenu key="sub2" icon={<AppstoreOutlined />} title="Navigation Two">
      <Menu.Item key="5">Option 5</Menu.Item>
      <Menu.Item key="6">Option 6</Menu.Item>
      <SubMenu key="sub3" title="Submenu">
        <Menu.Item key="7">Option 7</Menu.Item>
        <Menu.Item key="8">Option 8</Menu.Item>
      </SubMenu>
    </SubMenu>
    <SubMenu key="sub4" icon={<SettingOutlined />} title="Navigation Three">
      <Menu.Item key="9">Option 9</Menu.Item>
      <Menu.Item key="10">Option 10</Menu.Item>
      <Menu.Item key="11">Option 11</Menu.Item>
      <Menu.Item key="12">Option 12</Menu.Item>
    </SubMenu>
  </Menu>
);

export default () => (
```

```
  <Dropdown overlay={menu}>
    <a className="ant-dropdown-link" onClick={e => e.preventDefault()}>
      Hover to check menu style <DownOutlined />
    </a>
  </Dropdown>
);
```
