Invalid getServerSideProps Return Value

Why This Error Occurred   In one of the page's `getServerSideProps` the
return value had the incorrect shape.

Possible Ways to Fix It   Make sure to return the following shape from
getServerSideProps:

```
export async function getServerSideProps(ctx: GetServerSidePropsContext) {
  return {
    props: { [key: string]: any }
  }
}
```
