zh-CN

内置不同样式的文本以及超链接组件。

en-US

Provides multiple types of text and link.

```
import { Typography, Space } from 'antd';

const { Text, Link } = Typography;

export default () => (
  <Space direction="vertical">
    <Text>Ant Design (default)</Text>
    <Text type="secondary">Ant Design (secondary)</Text>
    <Text type="success">Ant Design (success)</Text>
    <Text type="warning">Ant Design (warning)</Text>
    <Text type="danger">Ant Design (danger)</Text>
    <Text disabled>Ant Design (disabled)</Text>
    <Text mark>Ant Design (mark)</Text>
    <Text code>Ant Design (code)</Text>
    <Text keyboard>Ant Design (keyboard)</Text>
    <Text underline>Ant Design (underline)</Text>
    <Text delete>Ant Design (delete)</Text>
    <Text strong>Ant Design (strong)</Text>
    <Text italic>Ant Design (italic)</Text>
    <Link href="https://ant.design" target="_blank">
      Ant Design (Link)
    </Link>
  </Space>
);
```
