`build` `passing`

to-fast-properties

Force V8 to use fast properties for an object

[Read more.](#)

Use `%HasFastProperties(object)` and `--allow-natives-syntax` to check whether an object already has fast properties.

Install

```
$ npm install --save to-fast-properties
```

Usage

```javascript
const toFastProperties = require('to-fast-properties');

const obj = {
    foo: true,
    bar: true
};

delete obj.foo;
// `obj` now has slow properties

toFastProperties(obj);
// `obj` now has fast properties
```
