Node e2e job migration notice:

Sig-testing is actively migrating node e2e jobs from Jenkins to [Prow](), and we are moving *.property and image-config.yaml files to [test-infra]()

If you want to update those files, please also update them in [test-infra]().

If you have any questions, please contact @krzyzacy or #sig-testing.

Test-infra Links:

Here's where the existing node e2e job config live:

[Image config files]()

[Node test job args (.properties equivalent)]()
