please plugin

[Please](#) is a cross-language build system with an emphasis on high performance, extensibility and reproducibility. It supports a number of popular languages and can automate nearly any aspect of your build process.

This plugin adds autocomplete and major aliases for `plz`, the command line tool for Please.

To use it, add `please` to the plugins array in your zshrc file:

```
plugins=(... please)
```

Aliases

Alias	Command
pb	plz build
pt	plz test
pw	plz watch
