Support for deploying and using Kubernetes

Welcome to Kubernetes! We use GitHub for tracking bugs and feature requests. This isn't the right place to get support for using Kubernetes, but the following resources are available below, thanks for understanding.

Stack Overflow

The Kubernetes Community is active on Stack Overflow, you can post your questions there:

- Kubernetes on Stack Overflow

    - Here are some tips for about how to ask good questions.
    - Don't forget to check to see what's on topic.

Documentation

- User Documentation
- Troubleshooting Guide

Real-time Chat

- Slack (registration): The `#kubernetes-users` and `#kubernetes-novice` channels are usual places where people offer support.

Forum

- Kubernetes Official Forum
