Welcome to Oh My Zsh!

- You'll need `zsh` to install **Oh My Zsh**. Run `zsh --version` to check if you have it:

```
$ zsh --version
zsh 5.8 (x86_64-ubuntu-linux-gnu)
```

- If you see `command not found` you don't have zsh installed. See [[Installing Zsh]] for instructions.

- Once you have zsh, you can install Oh My Zsh by simply running one of these commands:

Method	Command
curl	`sh -c "$(curl -fsSL https://raw.githubusercontent.com/ohmyzsh/ohmyzsh/master/tools/install.sh)"`
wget	`sh -c "$(wget -O- https://raw.githubusercontent.com/ohmyzsh/ohmyzsh/master/tools/install.sh)"`
fetch	`sh -c "$(fetch -o - https://raw.githubusercontent.com/ohmyzsh/ohmyzsh/master/tools/install.sh)"`

> **NOTE: the installer will rename an existing `.zshrc` file to `.zshrc.pre-oh-my-zsh`.**

Getting started

Once Oh My Zsh is installed:

- Get a quick summary of the built-in plugins: [[Plugins Overview]].
- Take a look at our [[Themes]] and [[Plugins]] (read the READMEs first!).
- If you need more, you can look at [[External themes]] and [[External plugins]]. **Take caution, we do not review these.**
- Have a look at the [[Cheatsheet]] for other Oh My Zsh tricks.

Advanced topics

- Having problems? Check out the [[FAQ]] for common problems, or the [[Troubleshooting]] page for instructions on how to diagnose the issue.
- Want to change stuff about Oh My Zsh? Learn about [[Customization]].
- If you want to learn more, check out the [[Resources]] page for more information.

Community

- Read our user [[Testimonials]].
- [[Articles]] Have you written a blog post/article that mentions Oh My Zsh?
- And don't forget to follow us on twitter!

Help out!

- Want to contribute? Check out our [[Code Style Guide]] and [[Design]] guidelines and start hacking away!
