If you're coming from the Internet, this section has been edited to only show main Oh My Zsh tricks. Documentation for each plugin can be found in each [[Plugins]] README.

Quick reference:

- Oh My Zsh's Command-Line Interface (CLI): `omz` . Run `omz --help` for available commands.
- To **update** Oh My Zsh: `omz update` .
- To **uninstall** it: `uninstall_oh_my_zsh` .
- To apply changes made to `.zshrc` : `omz reload` (this just runs `exec zsh`). **Do NOT run** `source ~/.zshrc` .

Commands

Command	Description
`alias`	List all aliases
`take` / `mkcd`	Create a new directory and change to it, will create intermediate directories as required.
`zsh_stats`	Get a list of the top 20 commands and how many times they have been run.
