Dialog class

Dialog instances are dispatched by the Page via the `dialog` event.

Signature:

```
export declare class Dialog
```

Remarks

The constructor for this class is marked as internal. Third-party code should not call the constructor directly or create subclasses that extend the `Dialog` class.

Example

```javascript
const puppeteer = require('puppeteer');

(async () => {
  const browser = await puppeteer.launch();
  const page = await browser.newPage();
  page.on('dialog', async dialog => {
    console.log(dialog.message());
    await dialog.dismiss();
    await browser.close();
  });
  page.evaluate(() => alert('1'));
})();
```

Methods

Method	Modifiers	Description
accept(promptText)		
defaultValue()		
dismiss()		
message()		
type()
