zh-CN

包括成功、失败、警告。

en-US

Messages of success, error and warning types.

```
import { message, Button, Space } from 'antd';

const success = () => {
  message.success('This is a success message');
};

const error = () => {
  message.error('This is an error message');
};

const warning = () => {
  message.warning('This is a warning message');
};

export default () => (
  <Space>
    <Button onClick={success}>Success</Button>
    <Button onClick={error}>Error</Button>
    <Button onClick={warning}>Warning</Button>
  </Space>
);
```
