Enterprise License API

Licensing is only available in Grafana Enterprise. Read more about [Grafana Enterprise]({{< relref "../enterprise" >}}).

If you are running Grafana Enterprise and have [Fine-grained access control]({{< relref "../enterprise/access-control/_index.md" >}}) enabled, for some endpoints you would need to have relevant permissions. Refer to specific resources to understand what permissions are required.

Check license availability

> **Note:** *Available in Grafana Enterprise v7.4+.*

```
GET /api/licensing/check
```

Checks if a valid license is available.

Required permissions

See note in the [introduction]({{< ref "#enterprise-license-api" >}}) for an explanation.

Action	Scope
licensing:read	n/a

Examples

Example request:

```
GET /api/licensing/check
Accept: application/json
Authorization: Bearer eyJrIjoiT0tTcG1pUlY2RnVKZTFVaDFsNFZXdE9ZWmNrMkZYbk
```

Example response:

```
HTTP/1.1 200 OK
Content-Type: application/json
Content-Length: 4

true
```

Status codes:

- **200** - OK

Manually force license refresh

> **Note:** *Available in Grafana Enterprise v7.4+.*

```
POST /api/licensing/token/renew
```

Manually ask license issuer for a new token.

Required permissions

See note in the [introduction]({{< ref "#enterprise-license-api" >}}) for an explanation.

Action	Scope
licensing:update	n/a

Examples

Example request:

```
POST /api/licensing/token/renew
Accept: application/json
Content-Type: application/json
Authorization: Bearer eyJrIjoiT0tTcG1pUlY2RnVKZTFVaDFsNFZXdE9ZWmNrMkZYbk

{}
```

Example response:

```
HTTP/1.1 200 OK
Content-Type: application/json
Content-Length: 357

{
  "jti":"2",
  "iss":"https://grafana.com",
  "sub":"https://play.grafana.org/"
  "lid":"1",
  "included_admins":5,
  "included_viewers":10,
  "lic_exp_warn_days":30,
  "tok_exp_warn_days":2,
  "update_days":1,
  "prod":["grafana-enterprise"],
  "company":"Grafana Labs"
}
```

The response is a JSON blob available for debugging purposes. The available fields may change at any time without any prior notice.

Status Codes:

- **200** - OK
- **401** - Unauthorized
- **403** - Access denied

Remove license from database

> **Note:** *Available in Grafana Enterprise v7.4+.*

```
DELETE /api/licensing/token
```

Removes the license stored in the Grafana database.

Required permissions

See note in the [introduction]({{< ref "#enterprise-license-api" >}}) for an explanation.

Action	Scope
licensing:delete	n/a

Examples

Example request:

```
DELETE /api/licensing/token
Accept: application/json
Content-Type: application/json
Authorization: Bearer eyJrIjoiT0tTcG1pUlY2RnVKZTFVaDFsNFZXdE9ZWmNrMkZYbk

{"instance": "http://play.grafana.org/"}
```

JSON Body schema:

- **instance** – Root URL for the instance for which the license should be deleted. Required.

Example response:

```
HTTP/1.1 202 Accepted
Content-Type: application/json
Content-Length: 2

{}
```

Status codes:

- **202** - Accepted, license removed or did not exist.
- **401** - Unauthorized
- **403** - Access denied
- **422** - Unprocessable entity, incorrect instance name provided.
