Gin Default Server

This is API experiment for Gin.

```go
package main

import (
    "github.com/gin-gonic/gin"
    "github.com/gin-gonic/gin/ginS"
)

func main() {
    ginS.GET("/", func(c *gin.Context) { c.String(200, "Hello World") })
    ginS.Run()
}
```
