example.js

```
_{{example.js}}_
```

templates/

- a.js
- b.js
- c.js

All templates are of this pattern:

```
module.exports = function() {
    return "This text was generated by template X";
}
```

dist/output.js

```
_{{dist/output.js}}_
```

Info

Unoptimized

```
_{{stdout}}_
```

Production mode

```
_{{production:stdout}}_
```
