Service Worker Example

This example shows how to add a simple service worker to a Next.js application. The service worker is in `public/sw.js` and it's installed by `pages/_app.js` after the first render.

The example is based on the following blog post: [Adding a service worker into your Next.js application](#).

Deploy your own

Deploy the example using [Vercel](#):

[▲ Deploy](#)

How to use

Execute `create-next-app` with [npm](#) or [Yarn](#) to bootstrap the example:

```
npx create-next-app --example with-service-worker with-service-worker-app
# or
yarn create next-app --example with-service-worker with-service-worker-app
# or
pnpm create next-app -- --example with-service-worker with-service-worker-app
```

Deploy it to the cloud with [Vercel](#) ([Documentation](#)).
