Export dashboard as PDF

You can generate PDFs from any of your dashboards and save it to file.

Only available in Grafana Enterprise v6.7+.

1. In the upper right corner of the dashboard that you want to export as PDF, click the **Share dashboard** icon.
2. On the PDF tab, select the layout option for exported dashboard: **Portrait** or **Landscape**.
3. Click **Save as PDF** to render dashboard as a PDF document. Grafana opens the PDF in a new window or browser tab.
