G-API Overview

This is the latest overview slide deck on G-API.

Prerequisites

- Emacs v24 or higher;
- Org-mode 8.2.10;
- `pdflatex`;
- `texlive-latex-recommended` (Beamer package);
- `texlive-font-utils` (`epstopdf`);
- `wget` (for `get_sty.sh`).

Building

1. Download and build the Metropolis theme with the script:

`$ ./get_sty.sh`

2. Now open `gapi_overview.org` with Emacs and press `C-c C-e l P`.
