To get started with Gatsby, you'll need to make sure you have the following software tools installed:

1. [Node.js](#)
2. [npm CLI](#)
3. [Gatsby CLI](#)

For step-by-step installation instructions and detailed explanations of the required software, head on over to the [Gatsby tutorial](#).

The [quick start](#) is also available for intermediate to advanced developers.

> **Note:** *If you work for an Enterprise-level company where you are unable to pull from public GitHub repositories, you can [still set up Gatsby](#).*
