The OpenCV Logo

The **OpenCV** logo is composed of the 3 capital letters **O, C, V** arranged in a triangle. The logo combines several motifs in the spirit of Open Source and Computer Vision.

The 3 letters O, C, V are reminiscent of the famous [Kanizsa triangle optical illusion](). The letters are shaped after the **open lock** [OpenSource logo](). The colors symbolize the common RGB color space.

The logo was designed and contributed to the library in November 2006 by Adi Shavit. Redesigned in 2020 (https://opencv.org/resources/media-kit/).
