Backlog

This file captures the prioritized list of issues the FancyZones team will tackle

On deck

Backlog

Add tests to the new editor [197](197)
Cycle through windows in a Zone [175](175)
Minimize/restore windows in a zone as a group [174](174)
FancyZones should support custom layouts for different "environments" [177](177)
Win+arrow is directional based on zone rect [162](162)
Dragging a zoned window should restore size to a checkpointed size instead of current rect [166](166)
FancyZones should merge with MTND and include zone moves in the pop-up [178](178)
Drag to edge of screen automatically switches virtual desktops [168](168)
Visual updates for Win+Arrow [171](171)
Add "magnetic dragging and resizing" mode to FancyZones [181](181)
Create layout from current windows [159](159)
Zone sets that have a dynamic number of zones [160](160)
