What's new in Grafana v4.4

Grafana v4.4 is now available for download.

Highlights:

- Dashboard History - version control for dashboards.

New Features

Dashboard History: View dashboard version history, compare any two versions (summary and json diffs), restore to old version. This big feature was contributed by **Walmart Labs**. Big thanks to them for this massive contribution! Initial feature request: #4638 Pull Request: #8472

Enhancements

- **Elasticsearch**: Added filter aggregation label #8420, thx @tianzk
- **Sensu**: Added option for source and handler #8405, thx @joemiller
- **CSV**: Configurable csv export datetime format #8058, thx @cederigo
- **Table Panel**: Column style that preserves formatting/indentation (like pre tag) #6617
- **DingDing**: Add DingDing Alert Notifier #8473 thx @jiamliang

Minor Enhancements

- **Elasticsearch**: Add option for result set size in raw_document #3426 #8527, thx @mk-dhia

Bug Fixes

- **Graph**: Bug fix for negative values in histogram mode #8628

Download

Head to the v4.4 download page for download links and instructions.

Thanks

A big thanks to all the Grafana users who contribute by submitting PRs, bug reports, helping out on our community site and providing feedback!
