`@next/react-refresh-utils`

This is an **experimental** package that provides utilities for React Refresh.

Its API is not stable as that of Next.js, nor does it follow semver rules.

Use it at your own risk.

Usage

All entrypoints below must wired into your build tooling for this to work.

`@next/react-refresh-utils/loader`

`@next/react-refresh-utils/ReactRefreshWebpackPlugin`

`@next/react-refresh-utils/runtime`
