mac80211 subsystem (basics)

You should read and understand the information contained within this part of the book while implementing a mac80211 driver. In some chapters, advanced usage is noted, those may be skipped if this isn't needed.

This part of the book only covers station and monitor mode functionality, additional information required to implement the other modes is covered in the second part of the book.

Basic hardware handling

TBD

This chapter shall contain information on getting a hw struct allocated and registered with mac80211.

Since it is required to allocate rates/modes before registering a hw struct, this chapter shall also contain information on setting up the rate/mode structs.

Additionally, some discussion about the callbacks and the general programming model should be in here, including the definition of ieee80211_ops which will be referred to a lot.

Finally, a discussion of hardware capabilities should be done with references to other parts of the book.

System Message: ERROR/3 (`D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\driver-api\80211\[linux-master][Documentation][driver-api][80211]mac80211.rst`, line 32)

Unknown directive type "kernel-doc".

```
.. kernel-doc:: include/net/mac80211.h
   :functions:
        ieee80211_hw
        ieee80211_hw_flags
        SET_IEEE80211_DEV
        SET_IEEE80211_PERM_ADDR
        ieee80211_ops
        ieee80211_alloc_hw
        ieee80211_register_hw
        ieee80211_unregister_hw
        ieee80211_free_hw
```

PHY configuration

TBD

This chapter should describe PHY handling including start/stop callbacks and the various structures used.

System Message: ERROR/3 (`D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\driver-api\80211\[linux-master][Documentation][driver-api][80211]mac80211.rst`, line 52)

Unknown directive type "kernel-doc".

```
.. kernel-doc:: include/net/mac80211.h
   :functions:
        ieee80211_conf
        ieee80211_conf_flags
```

Virtual interfaces

TBD

This chapter should describe virtual interface basics that are relevant to the driver (VLANs, MGMT etc are not.) It should explain the use of the add_iface/remove_iface callbacks as well as the interface configuration callbacks.

Things related to AP mode should be discussed there.

Things related to supporting multiple interfaces should be in the appropriate chapter, a BIG FAT note should be here about this though and the recommendation to allow only a single interface in STA mode at first!

**System Message: ERROR/3 (`D:\onboarding-resources\sample-onboarding-resources\linux-`

Unknown directive type "kernel-doc".

```
.. kernel-doc:: include/net/mac80211.h
   :functions: ieee80211_vif
```

Receive and transmit processing

what should be here

TBD

This should describe the receive and transmit paths in mac80211/the drivers as well as transmit status handling.

Frame format

System Message: ERROR/3 (D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\driver-api\80211\[linux-master][Documentation][driver-api][80211]mac80211.rst, **line 91)**

Unknown directive type "kernel-doc".

```
.. kernel-doc:: include/net/mac80211.h
   :doc: Frame format
```

Packet alignment

System Message: ERROR/3 (D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\driver-api\80211\[linux-master][Documentation][driver-api][80211]mac80211.rst, **line 97)**

Unknown directive type "kernel-doc".

```
.. kernel-doc:: net/mac80211/rx.c
   :doc: Packet alignment
```

Calling into mac80211 from interrupts

System Message: ERROR/3 (D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\driver-api\80211\[linux-master][Documentation][driver-api][80211]mac80211.rst, **line 103)**

Unknown directive type "kernel-doc".

```
.. kernel-doc:: include/net/mac80211.h
   :doc: Calling mac80211 from interrupts
```

functions/definitions

System Message: ERROR/3 (D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\driver-api\80211\[linux-master][Documentation][driver-api][80211]mac80211.rst, **line 109)**

Unknown directive type "kernel-doc".

```
.. kernel-doc:: include/net/mac80211.h
   :functions:
