v4.0.1 (2016-12-14)

WHOOPS

- `fb9b1ce` Merged so many patches at once that the code fencing ([@adius](#)) added got broken. Sorry, ([@adius](#))! ([@othiym23](#))

v4.0.0 (2016-12-13)

BREAKING CHANGES

- `651d447` When parsing String-typed arguments, if the next value is `""`, don't simply swallow it. ([@samjonester](#))

PERFORMANCE TWEAKS

- `3370ce8` Simplify initialization. ([@elidoran](#))
- `356e58e` Store `Array.isArray(types[arg])` for reuse. ([@elidoran](#))
- `0d95e90` Interpret single-item type arrays as a single type. ([@samjonester](#))
- `07c69d3` Simplify key-value extraction. ([@elidoran](#))
- `39b6e5c` Only call `Date.parse(val)` once. ([@elidoran](#))
- `934943d` Use `osenv.home()` to find a user's home directory instead of assuming it's always `$HOME`. ([@othiym23](#))

TEST & CI IMPROVEMENTS

- `326ffff` Fix `/tmp` test to work on Windows. ([@elidoran](#))
- `c89d31a` Only run Windows tests on Windows, only run Unix tests on a Unix. ([@elidoran](#))
- `affd3d1` Refresh Travis to run the tests against the currently-supported batch of npm versions. ([@helio-frota](#))
- `55f9449` `tap@8.0.1` ([@othiym23](#))

DOC TWEAKS

- `5271229` Use JavaScript code block for syntax highlighting. ([@adius](#))
- `c0d156f` The code sample in the README had `many2: [ oneThing ]`, and now it has `many2: [ two, things ]`. ([@silkentrance](#))
