platform_views_layout_hybrid_composition

Scrolling benchmark

To run the scrolling benchmark on a device:

`flutter drive --profile test_driver/scroll_perf.dart`

Results should be in the file `build/platform_views_scroll_perf_hybrid_composition.timeline_summary.`

More detailed logs should be in `build/platform_views_scroll_perf_hybrid_composition.timeline.json`.

Startup benchmark

To measure startup time on a device:

`flutter run --profile --trace-startup`

Results should be in the logs.

Additional results should be in the file `build/start_up_info.json`.
