zh-CN

提供选择器，自由切换不同类型的日期选择器，常用于日期筛选场合。

en-US

Switch in different types of pickers by Select.

```jsx
import React, { useState } from 'react';
import { DatePicker, TimePicker, Select, Space } from 'antd';

const { Option } = Select;

function PickerWithType({ type, onChange }) {
  if (type === 'time') return <TimePicker onChange={onChange} />;
  if (type === 'date') return <DatePicker onChange={onChange} />;
  return <DatePicker picker={type} onChange={onChange} />;
}

function SwitchablePicker() {
  const [type, setType] = useState('time');
  return (
    <Space>
      <Select value={type} onChange={setType}>
        <Option value="time">Time</Option>
        <Option value="date">Date</Option>
        <Option value="week">Week</Option>
        <Option value="month">Month</Option>
        <Option value="quarter">Quarter</Option>
        <Option value="year">Year</Option>
      </Select>
      <PickerWithType type={type} onChange={value => console.log(value)} />
    </Space>
  );
}

export default () => <SwitchablePicker />;
```
