License and Contributing

Animate.css is licensed under the [Hippocratic License](#).

Contributing

Pull requests are the way to go here. We only have two rules for submitting a pull request: match the naming convention (camelCase, categorized [fades, bounces, etc.]) and let us see a demo of submitted animations in a [pen](#). That **last one is important**.

Code of Conduct

This project and everyone participating in it is governed by the [Contributor Covenant Code of Conduct](#). By participating, you are expected to uphold this code. Please report unacceptable behavior to animate@eltonmesquita.com.
