"Search files for Front-End"

This plugin adds a few functions for searching files used in Front-End web development.

To use it, add `sfffe` to the plugins array in your zshrc file:

```
plugins=(... sfffe)
```

Requires: `ack`

Functions

- `ajs` : look for string in `.js` files.
- `acss` : look for string in `.css` files.
- `fjs` : search for `.js` files under the current working directory.
- `fcss` : search for `.css` files under the current working directory.
