zh-CN

修改上一步和下一步为文字链接。

en-US

Use text link for prev and next button.

```
import { Pagination } from 'antd';

function itemRender(current, type, originalElement) {
  if (type === 'prev') {
    return <a>Previous</a>;
  }
  if (type === 'next') {
    return <a>Next</a>;
  }
  return originalElement;
}

export default () => <Pagination total={500} itemRender={itemRender} />;
```
